Handwritten Digit

Problem Statement:

Handwriting recognition is one of the compelling research works going on because every individual in this world has their own style of writing. It is the capability of the computer to identify and understand handwritten digits or characters automatically. Because of the progress in the field of science and technology, everything is being digitalized to reduce

human effort. Hence, there comes a need for handwritten digit recognition in many real-time applications. MNIST data set is widely used for this recognition process and it has 70000 handwritten digits. We use Artificial neural networks to train these images and build a deep learning model. Web application is created where the user can upload an image of a handwritten digit, this image is analyzed by the model and the detected result is returned on to UI

PROBLEM

A Novel Method For Recognition System Brainstorm Write down any ideas that come to mind that address your problem statement. ⊕ 10 minutes

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go.

In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger

than six sticky notes, try and see if you and break it up into smaller sub-groups.

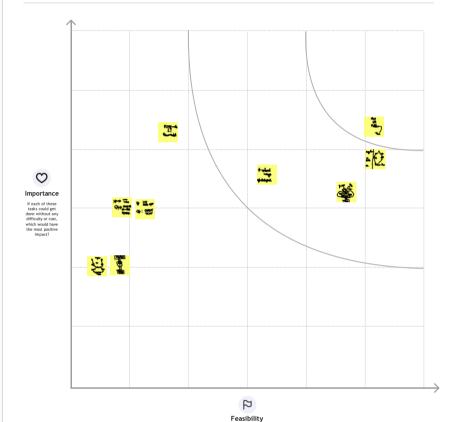

Prioritize

which are feasible.

→ 20 minutes

Your team should all be on the same page about what's important moving

forward. Place your ideas on this grid to determine which ideas are important and

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

Share template feedback

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural
Export a copy of the mural as a PNG or PDF to attach to

emails, include in slides, or save in your drive.

Keep moving forward

Customer experience journey man Understand customer needs, motivations, and obstacles for an experience.
